Letter No. 176/47-48 dt 22.1.48 from the Commissioner of Refugees regarding the employment of refugee P. W. D. Contractors.

1) The replies by the two Chief Engineers and the Chief Electrical Engineer to the enquiry made by the Commissioner of Refugees are for personal. It does not appear from them that refugee contractors have any opening in the State or that any special concessions are likely to be offered to them.

I agree WD 27/1

2) The Commissioner of Refugees recommends that the conditions relating to Cash Security may be relaxed. It is for orders whether this may be approved and communicated to the Government of India for giving due publicity.

8) Cash Security is for the Safety of the interest
of govt. It cannot be waived in any case
unless the officer responsible for giving out
the contract and taking work from the contractor
holds himself personally liable for the amount
of the Security in lieu of the Contractor.

9) Again enforcing the Security clause
in the case of Hyporean contractors, while dis
pensing with it in the case of non-Hyporeans
is opposed to the policy of the State and may
not be quite popular. It may be said that Secu

it was most necessary seeing that the contractor was a foreigner with no property or realisable assets in mysore, while it is insisted on in the case of Mysoreans, who have their everything in the State.

10) I am therefore of the opinion that this particular mode of encouraging the Refugees be given up. I am also doubtful if they can gather and command local labour or if there is labour enough of their own country here in Mysore willing to work under these contractors.

11) Again, there are rich merchants of the community of these refugees and it may not be difficult for these merchants long Settled in Mysore and flourishing, to stand Surety for their distressed brethren to the extent of the Security deposit.

With reference to your letter No. 63-4/47-48 ~~dx~~ dated 29-12-47, requesting to inform my views on the above subject, I have the honour to state that large works in this department are carried on by piece work system. Small works are entrusted to petty contractors on tender system. The Refugees have to arrange with the local labour and there will be unhealty competition. If they bring labour also they may perhaps be employed on our large irrigation projects.
